

# Watching Katie Worksheet

Katie uses her behaviors to communicate with her father, who brings her into the center, and her caregiver, Muk. The following questions are designed to help you watch this short interaction between Katie, her father and Muk. Practice recording only what you see and hear – from Katie, from her father, from Muk, and the environment. At this point, do not interpret what the behaviors mean.

1. Katie slaps at Muk just after she enters the center with her father. What triggers that behavior? (What is the antecedent?)
2. Muk asks, "Do you want to go outside, Katie?" How does Katie respond?
3. How does Katie respond the first time Muk brings down a branch for her?
4. How does Katie's father respond to her cries when they are working at the tree?
5. How does Muk respond to Katie's cries?
6. How does Katie's behavior change over time at the tree?
7. How does Muk eventually take Katie from her father? What cues does she give Katie? How does Katie respond?
